

Press

Project : Hydraulic Press

Features

The solidly constructed frame provides the rigidity and maximum deflection resistance that is essential to accurate press performance. Hydro Forming is the most suitable method for making spare car panels.

Specifications

Model	Standard Specification									
	Capacity (ton)	Slide stroke(mm)	Die height(mm)	Slide adjust (mm)	Slide speed			Die cushion		
					Descend(mm/s)	Pressing(mm/s)	Ascend(mm/s)	Capacity(ton)	Pad area(mm)	Ascend(mm/s)
HDT-1000	800~1000	150	1800	3750x2500	175	5~15	175	100~500	3200x2000	120
